

A True Sense of Community

At Greenwood Health & Living Community, our goal is to provide the same loving care we would give our own family members. Designed to provide the quality of life that our residents deserve, our community's intimate setting provides easy access for residents and family members and a truly home-like feel. Inviting gathering spaces include dining rooms with wooded views, a living room with a stone fireplace, entertainment and activity rooms, and an outdoor courtyard.

Our outstanding nursing team's excellence in care-giving is shown in our frequent resident referrals. We are committed to honoring each resident's individuality by recognizing their unique needs and preferences; each resident's care is individually planned by health care professionals, the resident and their family.

Family-first Senior Living

Family-first is our philosophy at Greenwood Health & Living Community, an approach that goes back to 1977, when CarDon & Associates was first established. As a member of the CarDon family of senior living communities, which now extends throughout south-central Indiana, Greenwood Health & Living Community encourages family members to become involved with each resident's personal care plan.

Throughout every level of care we offer, we ensure a better quality of life each day for our residents, by treating them as we would our own loved ones.
